## EDUCATION

### GTU AHMEDABAD University

Diploma Engineering Computer Engineering

Daman, India

Aug. 2015 – May 2018

### RGVP Rajiv Gandhi Proudhyogiki Vishwavidyalaya Bhopa

B.TECH Computer Science Engineering

Bhopal, India

Aug. 2018 - May 2021

## EXPERIENCE

### 1Rivet India

January 2024 – Present

Associate L1 (Frontend developer)

Valsad, India

- Developed and maintained user-facing web pages using **HTML, CSS, SASS, Bootstrap JavaScript, Typescript, Angular, and React.js**.
- Designed interactive user interfaces and reusable components, ensuring cross-browser compatibility and clean, industry-standard code
- Collaborated with back-end developers to integrate UI elements into applications.
- Started learning React.js libraries and Node.js fundamentals, including React Router, Mantine, Express.js, and MongoDB.

### 1Rivet India

January. 2023 – 2024

Associate Trainee (Frontend developer)

Valsad, India

- Implemented **HTML5, CSS3, SCSS, Bootstrap, JavaScript, and Angular**, focusing on mastering these technologies and enhancing front-end development skills.
- Brought mock-ups to life with HTML, CSS, and JavaScript, and developed responsive designs that adapt to different screen sizes and devices.
- Familiarized with the company's standard documentation practices and learned the MVP (Model-View-Presenter) concept for better project structuring.
- Explored version control systems like Git and GitHub and received a certificate from Udemy for completing courses in HTML, CSS, SCSS, Bootstrap, JavaScript, and Angular

## PROJECTS

### Docdirect | React.js, MongoDB, Node.js, Express.j, Mantine

March 2023 – Present

- Users can easily book appointments with available doctors online, anytime, and anywhere.
- Efficiently manages large databases, including patient and user details, for clinics and hospitals
- Helps clinics and hospitals maintain comprehensive records, send reminders, and manage all patient information smoothly.

### 1Chat | Angular, MongoDB, Node.js, Express.j, socket.js

June 2023 – Feb 2024

- Develop a chat application to facilitate communication between interns and mentors or leads, and to allow interns to submit End of Day (EOD) reports to their supervisors.
- Authentication and Security: JWT-based login/registration, token refresh, and secure API routes.
- Messaging: Real-time direct and group conversations, message editing, emojis, online/offline status, typing indicators, and infinite message history with timestamps and pagination.
- EOD Reports: Auto-generation at shift start, task management, and exclusive report submission to mentors.

### 1Rhythm | Angular, CSS Bootstrap, Git

January 2023 – May 2023

- 1Rhythm: An online platform connecting studio owners with musicians and artists for real-time studio and equipment bookings across India. It simplifies the booking process and reduces manual tasks.
- My Role: Developed login and registration pages with Angular, designed the studio booking UI, and implemented various Angular features.

## TECHNICAL SKILLS

**Programming languages:** Javascript, Typescript, HTML/CSS/SASS, PostgreSQL, MongoDB

**Frameworks:** Angular, React, Node.js, Express, Material-UI, Bootstrap, Mantine-UI, tailwind.css

**Developer Tools:** JIRA, Git, GitHub, Webpack, Parcel, Postman, Swagger, VS Code, React/angular DevTools

**Libraries:** Rxjs, Angular Material, NGX Bootstrap, Tailwind.css, Chart.js, Axios, Fetch API, Formik, Validator.js, Redux

**Languages:** English, Hindi, Gujarati
